How to present a writing lesson

Thrive Academy Writing, Grades K to 2, Teacher Book

OPEN THE LESSON

1. Open the Teacher Book and turn to this week.
2. Tap **Lesson**. The lesson opens full screen.
3. Tap **Notes** (top right). Your script opens in its own small window. If nothing opens, allow pop-ups for the page and tap Notes again.

SHARE ONLY THE LESSON, NEVER YOUR WHOLE SCREEN

- **Google Meet:** Present now, then **A tab**, then choose the flipbook tab.
- **Zoom:** Share Screen, then choose the **browser window** with the flipbook (not Desktop or Screen).
- Your notes window is separate, so students do not see it. If you must share your entire screen, put the notes on a second monitor.

TEACHING ONE STEP AT A TIME

- **Next step:** click the slide, press the right arrow or space bar, use a presentation clicker, or tap Next in the notes window.
- **Go back:** left arrow, or Back.
- **Move something:** drag any word or picture that popped up. **Reset moves** puts it back.
- **Draw or write:** tap **Pen** and pick a color. Tap Pen again to go back to clicking through. **Clear ink** erases this slide.
- **Jump to a slide:** use the slide buttons in the notes window.
- **Close:** the X, or the Esc key.

WHAT EVERY LESSON DOES

1. The type of writing, and what it means.
2. The prompt, and a short talk.
3. The brainstorm, then the teacher picks the topic to model.
4. The teacher fills in the organizer.
5. Each part of the organizer becomes a sentence on the lines.
6. Read it together, then check the writing.

The first three times students use an organizer, the lesson walks through all of it. After that, the lesson is a quick reminder of the order, with an optional quick model.

Day 1 is teacher modeling. Students watch and help, and may follow along on their worksheet. **Days 2 and 3** are for their own organizer and writing.
